PROFESSIONAL SUMMARY

Life sciences strategy consultant with nearly 8 years of experience supporting pharmaceutical companies across market access, commercial strategy, innovation and healthcare transformation initiatives. Strong analytical background combining biochemistry, data science and business strategy, with experience in market access operating models, pricing strategy, competitor benchmarking, health data projects and evidence-driven decision making.

Interested in translating clinical and economic evidence into patient access and healthcare value.

PROFESSIONAL EXPERIENCE

Deloitte — Life Sciences & Healthcare Strategy | Senior Consultant

Dec 2020 – Present

Consistently ranked among the top 5% of performers across annual performance evaluations

- ***PHARMACEUTICAL · Embedded project manager, international innovation hub.***
  Managed a healthcare innovation project involving protocol development, hospital stakeholder engagement and health-data collaboration, contributing to evidence generation and real-world healthcare insights
- ***PHARMACEUTICAL · Market Access team structure & skills mapping.***
  Led a benchmark analysis of Market Access operating models across 15+ pharmaceutical companies, evaluating organizational structures, evidence generation capabilities, access functions and over 400 skills to support the redesign of a market access organization
- ***PHARMACEUTICAL · Sales Representative role transformation & capability building.***
  Shaped the capability and skills framework for the role, translating industry insights into a multi-year training roadmap and technical development program. Currently supporting the implementation of the program through the delivery of technical and capability-building training initiatives
- ***PHARMACEUTICAL · AI knowledge assistant.***
  Led the implementation of the corporate AI strategic plan including the development of an enterprise AI tool integrating internal and external knowledge sources aiming to cut time spent on routine tasks by 30%
- ***PHARMACEUTICAL DISTRIBUTION · Strategic plan for a pharmacy digital self-service kiosk initiative.***
  Evaluated the solution, conducted market benchmarking, defined the value proposition, and built a five-year financial model including ROI, NPV, and scenario analyses
- ***CONSUMER HEALTH · Pricing strategy & governance.***
  Designed advanced pricing strategy for OTC products, optimizing pricing strategies across multiple European markets through conjoint analysis and competitive benchmarking
- ***LIFE SCIENCES · Business development & Client engagement.***
  Conducted commercial work building 30+ project proposals, 10+ executive/steering-committee decks, and organized commercial client visits to leading global industry conferences and innovation events
- ***FOOD & BEVERAGE*** · Go-to-market business model transformation transitioning to a platform-based distribution strategy
- ***CONSUMER GOODS*** · Post-merger integration of an edible oils company into a leading FMCG group
- ***CONSUMER GOODS*** · Promotional effectiveness and revenue growth management initiative
- Additional strategy and innovation projects across other sectors like Hospitality, Automotive and Financial Services, focused on pricing, customer strategy, and digital marketing optimization
